SUMMARY

Data Analyst with hands-on experience through **3 internships** and delivery of **4+ real-world projects**. Skilled in transforming raw data into actionable insights using **Python, SQL, Power BI, Excel, Tableau, n8n and DAX**. Demonstrated ability to build **interactive dashboards**, automate reporting and optimize queries **reducing** manual effort by **20+ hours/month**. Strong foundation in data cleaning, visualization, and analytics, with proven impact on **decision-making and performance tracking**.

TECHNICAL SKILLS

Programming: Python, R, SQL,
Tools: Power BI, Tableau, Excel, n8n, VBA
Libraries: Pandas, NumPy, Matplotlib, Seaborn
Databases: MySQL, MongoDB
Analytics: Data Cleaning, Data Modeling, Exploratory Data Analysis (EDA), KPI Reporting, ETL, DAX

EDUCATION

Bachelor of Technology (B.Tech), Parul University   2021 – 2025
Major: Computer Science with Artificial Intelligence   GPA: 7.22/10

EXPERIENCE

Data Analytics Intern, Deloitte (Virtual)   Jun 2025

- Completed job simulation in **forensic technology and data analytics** using **Excel** and **Tableau**.

- Built interactive dashboards and applied Excel classification techniques to detect anomalies and support **fraud detection**.

Data Visualization Intern, Tata Group (Virtual)   Jun 2025

- Designed interactive **Tableau dashboards** for senior leadership to evaluate business performance effectively.

- Created **visual reports** that highlighted key business drivers, improving strategic decision-making.

Data Analyst Intern, Unified Mentor Pvt. Ltd   May 2024 – Jun 2024

- Performed **exploratory data analysis (EDA)** and data wrangling with **Pandas** and **NumPy**, improving campaign targeting accuracy by 15%.

- Built automated dashboards in **Excel** and **Tableau**, cutting manual reporting time by 20+ hours/month.

- Developed KPI reports that enhanced stakeholder visibility and improved operational efficiency by 12%.

PROJECTS

Amazon Sales Analysis   **Power BI, Excel, DAX**

- Built an interactive **Power BI dashboard** analyzing Amazon sales and customer reviews with dynamic **KPIs**, improving product performance tracking and sales forecasting.
  GitHub Repository

Banking Loan and Deposit Analysis   **SQL, Python, Power BI**

- Collected and cleaned **large financial datasets**, wrote optimized **SQL queries**, and developed a **Power BI dashboard** to provide insights on customer behavior, loan performance, and financial risks.
  GitHub Repository

IPL Analysis Dashboard (2008–2025)   **Power BI, DAX**

- Created a dynamic **IPL dashboard** with season-wise insights, team/player stats, and automated **points table calculations** using DAX, enabling trend analysis and fan engagement.
  GitHub Repository

Student Engagement Dashboard n8n   **n8n, Data Analytics + AI**

- Developed an **end-to-end data analytics automation** workflow in **n8n** to generate interactive student engagement dashboards.

- Integrated **Google Sheets**, **QuickChart**, and **Gemini LLM** for KPI insights, visual analytics, and AI-driven summaries.

- Automated report generation and delivery via Gmail, enabling real-time, data informed academic decisions.
  GitHub Repository
